CHARMCHIAN

LONDON

Our smart casual dark brown fine leather belt is suitable for all occasions, in particular for more casual and sporty attire. Charmchian uses only the finest leather and the waxy hide used here means this belt will wear well and acquire a pleasant patina over time. The back of the belt is lined in natural fine leather as well. The elegant solid brass buckle is covered in nickel to give it that perfect silver finish.

SIZE GUIDE

Below is a rough size guide. Please note we would always advise to measure your size prior to ordering the belt to be sure you have selected the right size. The size of our belts is measured from the middle hole to the edge of the buckle. The belt size will often be one size larger than your actual waist size. Please measure your waist with your trousers on and allow some room for different trousers thickness and cuts (for example, low cut jeans will need a much bigger belt than a high waisted pair of suit trousers).
